Mike, Joe—can one of you call this radio reporter? Sounds like he just needs basic points.

Hi Jon,

I believe your best bet will be to talk with EPA's regional office. I'm looping in their comms team here.

Subject: Columbia Falls Aluminum Plant Agreement Interview

Hello Christie, my name is Jon King and I am a radio reporter with KGVO news in Missoula, Montana. There is a proposed superfund site to the north of us and I understand that an agreement was recently made between the EPA and Glencore, the company that owns the property known as the Columbia Falls Aluminum plant. If an interview is possible sometime today it would be much appreciated. It won't be long, I am just looking for a tops-of-the-trees description of the agreement. If possible, please have someone call me at 1 800 568 5309.

Thank you!
